JAI PARKASH MUKAND LAL INNOVATIVE ENGINEERING & TECHNOLOGY INSTITUTE, RADAUR

18th November, 2017

Supported By: Maruti Suzuki India Ltd. MUKAND GROUP
SAEINDIA NIS AWIM JetToy & Skimmer HARYANA REGIONAL OLYMPICS 2017

SAEINDIA NIS AWIM JetToy and Skimmer Regional Olympics 2017 for Haryana Region were conducted successfully on a prodigious scale at JMIETI, RADAUR on 18th November, 2017 amongst the myriad of enthusiastic students and teachers from schools all over Haryana.

Over 200 students from nearly 25 schools across Region participated in the competition for both the categories. The event was supported by Industry volunteers from Maruti Suzuki India Ltd. and over 60 College volunteers from JMIETI (RADAUR) & JMIT (RADAUR)
With the auspicious tradition of inauguration lamp lighting by Mr. Alok Jaitley, convenor- AWIM’2017, Mr. Anup Kacker, Executive Director, SAENIS, Er Amit Kumar, Convener Kurukshetra Region and other dignitaries, the AWIM Regional Olympics were declared open. It was followed by an enthusiastic opening speech by Ms. Astha, a volunteer from JMIETI who managed to pump up the myriad of emotions in the students as well as teachers.

Soon after the welcome speech by dignitaries like Mr. Alok Jaitley and other chief guests, followed by a briefing session of rules and regulations, the fabrication round was embarked upon. The teams had to fabricate their vehicles magnificently and perform testing in the given specified time. The teams also had to do the preparation of Presentation charts and aesthetic models of their Jettoy/Skimmer in which they were supposed to represent the unique special features of their vehicle and the reason why it stands out from the vehicles of present age, to the judges.

While the students were busy with the preparation of track and presentation rounds, the teachers were occupied with the task of presenting themselves by making a poster and explaining the situation on the current topics like WORLD AFTER 50 YEARS, WOMEN EMPOWERMENT & DIGITAL INDIA. The teachers put their thinking caps on and did best of their efforts. Some of them evolved with extremely convincing ideas. The teachers enjoyed the event to the fullest.

As the teacher’s round got over, students were also done with fabrication of their Jettoy/Skimmer along with the chart paper and aesthetic model for presentation purposes. Following two hours of rigorous fabrication and testing session, the teams were upbeat about the succeeding track rounds.

Testing of the vehicle:
All the students were relentless and showcased excellent technical and manipulation skills with the nozzle sizes, balloon inflation diameter and many more aspects of the Jettoy for different track rounds such as highest accuracy, maximum distance, maximum speed, maximum time and weight carrying ability. Students gave a good show and were prompt and smart enough to deal with all the problems they faced throughout the event.

Track rounds of jettoy and skimmer
Similar trends were observed with the teams competing in the skimmer challenge. Student design teams changed the shapes and sizes of the sails accordingly for various track events namely, highest speed, turn ability, highest accuracy, maximum distance, maximum speed and weight carrying ability.

All the teams were adept in fabricating and launching their Skimmer for the final track rounds. After this they made their presentation chart and aesthetic model.
While some of the teams were anticipating for their testing rounds, the rest of the teams were busy with the presentation round, where students had to introduce the ideas they would incorporate in the toy and its unique features with the help of a chart and a demo/aesthetic toy. Students had to come up with team name, logo, toy’s name and unique features of the toy. Children devised innovative toys that could fly, run on water which was aided by their creativity and imagination.

A distinguished panel of judges judged these toy cars on various parameters.
After the presentation and track rounds, there was an interactive session with the teachers and students and all the queries and feedbacks were appreciated.

A 5th standard student from SAHARA COMPREHENSIVE SCHOOL, KURUKSHETRA gave a mesmerizing performance. Many other students from various schools performed for the audience.

Teacher’s and student’s comments for AWIM_2017

“I was really amazed to see the enthusiasm shown by these students”

Ms. Nidhi Bansal
(Sahara Comprehensive School, Kurukshetra)

“The students made their cars fantastically. The effort shown by these small children of class 5th and 6th is great.”

Ms. Deepti
(Mukand Lal School)

I was super excited to hear the results. My fingers were crossed and when results were announced and seeing that my school has won third place in Skimmer, my happiness was out of control.

Piyush Kalra
(DAV Centenary School)
